

REPORT TO THE 2013 SENATE STATE ADMINISTRATION AND HOUSE STATE ADMINISTRATION COMMITTEES

Full Time Reemployment of TRS Retirees House Bill 363, 2009 Legislative Session (19-20-732, MCA)

Prepared by David L. Senn
Executive Director
Teachers' Retirement System

House Bill 363, 2009 Legislative Session, sponsored by Representative Llew Jones, allows a retired member of Teachers' Retirement System (TRS) with 30 or more years of service to be re-employed as a teacher, specialist, or administrator on a full time basis by a school district without the loss or interruption of their TRS retirement benefits. A retired member hired under this provision is exempt from the one-third earning's limits under Montana Code Annotated (MCA) §19-20-731.

The intent behind HB 363 (codified as 19-20-732, MCA), as explained by the Sponsor, was to help school districts fill a position when they cannot find a qualified applicant, and to do so in such a way as to not have an adverse impact on the funding of TRS. Therefore, before hiring a retired teacher, a school district must first certify to TRS and the Office of Public Instruction that they advertised the position but were unable to fill the position because the school district received no qualified applications or did not receive an acceptance of an offer of employment made to a non-retired teacher, specialist, or administrator. Advertisement of the position and certification of inability to fill the position must occur each school year prior to entering into a contract with a retired member, including re-contracting with the same retired member.

To be eligible for reemployment under §19-20-732, MCA, a retired member must have retired under TRS with 30 or more years of creditable service. In addition, a TRS retired member must also have received at least two monthly retirement benefits. Because monthly benefits are processed on the last business day of each month, if a retiree terminated in June, with retirement benefits effective July 1, they would not be eligible to be reemployed under this provision until September 1, after they have received their July and August retirement benefits.

The maximum number of years a TRS retired member may be employed, pursuant to §19-20-732, is three years during their lifetime. A year is defined to mean all or any part of a fiscal year (July 1 through June 30). Retired members reemployed under this provision do not receive any increase in their retirement benefits due to additional service time or salary received while working and drawing retirement benefits. The majority of the retirees re-hired under this provision have been re-hired for three consecutive years.

To fund any adverse impact this return to work provision might have on TRS, school districts who rehire a retired member pursuant to §19-20-732, are required to contribute to TRS the sum of all employee and employer contributions rates (currently 17.11%) on the salaries paid to retired members working under this provision. **Note:** this rate is to be paid by the school district

employing a TRS retired member; reemployed retired members are not required to contribute to TRS. Section 19-20-732, MCA, terminates on June 30, 2015.

The TRS board is required to report each legislative session regarding the implementation of and the results arising from §19-20-732. Given the small number of rehired retirees to date, it is unlikely the provisions of §19-20-732, MCA, has had an adverse impact on the funding of TRS. Since September 2009, four districts have reemployed retired TRS members as follows:
